

## **Allerton Holiday Park Access Statement**

Allerton Holiday Park is set in a beautiful pine woodland and is next door to the historic Allerton Castle, near Knaresborough.

The site has a number of luxury timber lodges, holiday homes and also caters for campers and caravanners. There are lodges and holiday homes that are suitable for wheelchair users. Other homes are accessible by mobility impaired or wheelchair users but assistance may be required.

Allerton Holiday Park is located between Knaresborough and York. The nearest train station is at Cattal, 4 miles from Allerton. We do not recommend walking from Cattal to Allerton along the main A59. There is no bus service.

On arrival visitors should report to reception. There is a car parking space outside and the ground is level into the reception area. The door to reception is 750mm wide and the reception area is level and carpeted throughout.

Allerton Holiday Park has a number of woodland lodges for hire – two of these can be accessed by a ramp. The external door is 710mm wide; the patio door is 700mm wide and all the internal doors are 550mm wide. The layout of the lodges is open plan.

Allerton Holiday Park has numerous holiday homes for hire. One of our homes is designed wheelchair friendly. The main door is 750mm wide; to the master bedroom the door is 720mm wide; the second bedroom door is 500mm wide. The bathroom door is 700mm wide. The bedroom and bathroom both have sliding doors. There is a seat in the shower for additional comfort and safety. Access to this holiday home is either by 8 steps or via a ramp.

Touring pitches have hard standing (subject to availability – please request when making your booking). Parking is permitted alongside the caravan.

Facilities on the site are clearly signed and include: water points, dustbin and recycling areas; chemical toilet disposal points; and a launderette.

There are two toilet blocks. The gents is next to the reception and this is accessible via one step. The ladies toilet block is at the back of the reception and is accessed via two steps. In total there are 8 toilets, 1 bath and 8 showers. Parking is available at the toilet blocks.

The Launderette features top loading washing machines, tumble dryers, an iron and an ironing board, for use in a standing position.

The grounds around Allerton Holiday Park are not flat. The Park is on undulating land and whilst there are some tarmac pathways there are also gravelled areas. There are areas of grassland around the holiday park and these are rugged underfoot.
